Licence classified	succeeded	None	license_classified
Entry routine detected	succeeded	0.01	entry_detected
Dependencies resolved	succeeded	0.00	dependencies_resolved
Request checked against the source	succeeded	0.00	contract_constructed
Original build compiled	succeeded	0.26	original_compiled
Source transformed	succeeded	0.57	transformed
Transformed build compiled	succeeded	2.70	generated_compiled
Original build executed	succeeded	0.00	original_executed
Transformed build executed	succeeded	0.01	transformed_executed
Stress and state agree between builds	succeeded	0.00	primal_parity
Independent reference resolved	succeeded	0.04	reference_resolved
Derivatives compared	succeeded	0.01	derivatives_verified

Furthest stage reached: Derivatives compared

Do the two builds agree before any derivative is compared?

PASS Stress and state agree between the independently compiled original and transformed builds. Worst relative difference 2.011e-16. The derivative comparisons below are therefore between comparable quantities.
